Re: Infrastructure and Development Services Bid Number 19-97
Addison Airport Customs and Border Protection Facility REBID
Town of Addison, Texas

To Whom It May Concern,

We would like to thank you for your consideration of our proposal for the Addison Airport Customs and Border Protection Facility project. As a company whose main ambition is to help build up the surrounding communities while establishing a foundation in construction integrity, projects such as the one you are about to undertake hold great value according to our standards.

Our company and its staff have excelled in the field of contracting for many years due to our diligence in efficiency, accuracy, and care we give to each project. Upon review of our project experience, you will see that J.C. Commercial has extensive experience working with aviation facilities and new construction projects similar to that which you are about to embark upon.

Over the years, J.C. Commercial has completed over $260 million construction projects within Texas and without Owner litigation. This includes airport projects for various neighboring facilities totaling over $35 million and $150 million in new construction.

Our proposed project personnel are extremely knowledgeable with projects of this type, accelerated schedules, stringent safety requirements and are available from start to finish.

Once again, thank you for accepting the following proposal for review. The attached documentation is a mere sampling of the exceptional work J.C. Commercial, Inc. desires to complete for you. We look forward to working with the Town of Addison on this endeavor.

Sincerely,

Larry Wagner, President
J.C. Commercial, Inc.

SECTION PF-1

PROPOSAL FORM
PROPOSAL FORM

May 2, 2019

TO: The Honorable Mayor and Town Council
   Town of Addison, Texas

Gentlemen:

The undersigned bidder, having examined the plans, specifications and contract documents, and the location of
the proposed work, and being fully advised as to the extent and character of the work, proposes to furnish all
equipment and to perform labor and work necessary for completion of the work described by and in accordance
with the Plans, Specifications and Contract for the following prices, to wit:

Signed by: _____________________________
Larry Warner, President

ACKNOWLEDGMENT OF ADDENDA:

The Bidder acknowledges receipt of the following addenda:

- Addendum No. 1 ✔
- Addendum No. 2 ✔
- Addendum No. 3 ✔
- Addendum No. 4 ✔
- Addendum No. 5 ✔
- Addendum No. 6 ✔
- Addendum No. 7 ✔
- Addendum No. 8 ✔

The following Lump Sum Price contains all bid items for:

INFRASTRUCTURE AND DEVELOPMENT SERVICES BID NUMBER 19-97
RE-BID ADDISON AIRPORT CUSTOMS AND BORDER PROTECTION FACILITY
NOTES: 1. All items, labor, materials, equipment, facilities, incidentals and work required for construction of the project are to be provided and installed by the Contractor as part of the project and payment for the cost of such shall be included in the price bid for the construction of the project.

2. Prices must be shown in words and figures for each item listed in the Proposal. In the event of discrepancy, the words shall control.

3. Materials, which are “tax exempt”, are those items which are physically incorporated into the facilities constructed for the Town of Addison, as set forth in the Special Provisions. Materials include, but are not limited to purchased items such as water pipe, sanitary sewer pipe, storm drain pipe, etc.

4. Services, which are “not tax exempt”, are those items which are used by the Contractor but are not physically incorporated into the Town of Addison’s facility and/or items which are consumed by construction, as set forth in the Special Provisions. Services include, but are not limited to, items such as supplies, tools, skill and labor, the purchase, rental or lease of equipment, etc.

I. CONTRACT SUM

Bidders must fill bid proposal for base bid 1, base bid 2, and base bid 3 for a Total Bid price. The lowest total bid price will received the maximum points for the Price Proposal section of the Contract Award of the lowest qualified bidder.

Provide the sum of the Total Bid for Base Bid 1 + Base Bid 2 + Base Bid 3 for completion of the entire Work.

Total Price in Words: _________________________________ DOLLARS ($___________).

II. BID PROPOSAL ALTERNATES

The following alternates shall be included with the Bid Proposal. It is understood that if no figure is listed for the Alternate, that the Alternate may be accepted and there shall be no change in the Bid Proposal Contract Sum amount indicated above. Strike out (add) or (deduct) as required. Refer to Division 1 Section "Alternates" in the Project Manual for a complete description of all alternates.

ALTERNATE 1 – Remove the folding panels partition from the Project scope.
If the Owner selects Alternate 1, (add) (deduct) the sum of:

_____________________________ DOLLARS $ ______________________

ALTERNATE 2 – Replace all perforated panel exterior wall cladding systems with non-perforated formed metal wall panel system.
If the Owner selects Alternate 1, (add) (deduct) the sum of:

_____________________________ DOLLARS $ ______________________

ALTERNATE 3 – Remove the Regulated Garbage Utility Building from the Project scope.
If the Owner selects Alternate 1, (add) (deduct) the sum of:

_____________________________ DOLLARS $ ______________________

PF-15
ALTERNATE 4 – Replace selected interior glass partition wall systems with framed gypsum board wall partitions and interior glazed doors.
If the Owner selects Alternate 4, (add) (deduct) the sum of:

                 DOLLARS $_______________ )

ALTERNATE 5 – Reduce the roof and soffit overhang above the level 2 Airfield Operations Observation Platform (Area 217).
If the Owner selects Alternate 5, (add) (deduct) the sum of:

                 DOLLARS $_______________ )

ALTERNATE 6 – Replace the tiled floor system on the level 2 Airfield Operations Observation Platform (Area 217) with an exposed waterproofing pedestrian traffic coating.
If the Owner selects Alternate 6, (add) (deduct) the sum of:

                 DOLLARS $_______________ )

III. SCHEDULE
From the date of commencement of the Work, provide the maximum duration in calendar days to reach Substantial Completion of the entire Work.

No later than ____________________________ CALENDAR DAYS (__________).

IV. DEFINITIONS
As defined by the American Institute of Architects (AIA) Document A201-2017 General Conditions of the Contract for Construction:

• The term “Work” means the construction and services required by the Contract Documents, whether completed or partially completed, and includes all other labor, materials, equipment and services provided or to be provided by the Contractor to fulfill the Contractor’s obligations. The Work may constitute the whole or a part of the Project.

• The term “Substantial Completion” is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work for its intended use.

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof, or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

Sophie Hunter, Attorney in Fact
POWER OF ATTORNEY
BERKLEY INSURANCE COMPANY
WILMINGTON, DELAWARE

NOTICE: The warning found elsewhere in this Power of Attorney affects the validity thereof. Please review carefully.

KNOW ALL MEN BY THESE PRESENTS, that BERKLEY INSURANCE COMPANY (the “Company”), a corporation duly organized and existing under the laws of the State of Delaware, having its principal office in Greenwich, CT, has made, constituted and appointed, and does by these presents make, constitute and appoint: Ricardo J. Reyna; Don E. Cornell; Sophie Hunter; Robbi Morales; Kelly A. Westbrook; Tina McEwan; Joshua A. Saunders; or Tonie Petranek of Aon Risk Services Southwest, Inc. of Dallas, TX its true and lawful Attorney-in-Fact, to sign its name as surety only as delineated below and to execute, seal, acknowledge and deliver any and all bonds and undertakings, with the exception of Financial Guaranty Insurance, providing that no single obligation shall exceed Fifty Million and 00/100 U.S. Dollars ($50,000,000.00), to the same extent as if such bonds had been duly executed and acknowledged by the regularly elected officers of the Company at its principal office in their own proper persons.

This Power of Attorney shall be construed and enforced in accordance with, and governed by, the laws of the State of Delaware, without giving effect to the principles of conflicts of laws thereof. This Power of Attorney is granted pursuant to the following resolutions which were duly and validly adopted at a meeting of the Board of Directors of the Company held on January 25, 2010:

RESOLVED, that, with respect to the Surety business written by Berkley Surety, the Chairman of the Board, Chief Executive Officer, President or any Vice President of the Company, in conjunction with the Secretary or any Assistant Secretary are hereby authorized to execute powers of attorney authorizing and qualifying the attorney-in-fact named therein to execute bonds, undertakings, recognizances, or other suretyship obligations on behalf of the Company, and to affix the corporate seal of the Company to powers of attorney executed pursuant hereto; and said officers may remove any such attorney-in-fact and revoke any power of attorney previously granted; and further

RESOLVED, that such power of attorney limits the acts of those named therein to the bonds, undertakings, recognizances, or other suretyship obligations specifically named therein, and they have no authority to bind the Company except in the manner and to the extent therein stated; and further

RESOLVED, that such power of attorney revokes all previous powers issued on behalf of the attorney-in-fact named; and further

RESOLVED, that the signature of any authorized officer and the seal of the Company may be affixed by facsimile to any power of attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligation of the Company; and such signature and seal when so used shall have the same force and effect as though manually affixed. The Company may continue to use for the purposes herein stated the facsimile signature of any person or persons who shall have been such officer or officers of the Company, notwithstanding the fact that they may have ceased to be such at the time when such instruments shall be issued.

IN WITNESS WHEREOF, the Company has caused these presents to be signed and attested by its appropriate officers and its corporate seal hereunto affixed this 25th day of MARCH, 2019.

ADDITIONAL INSURANCE REQUIREMENTS
TOWN OF ADDISON, TEXAS
ADDISON AIRPORT CUSTOMS AND BORDER PROTECTION FACILITY

REQUIREMENTS
Contractors performing work on TOWN OF ADDISON property or public right-of-way shall provide the TOWN OF ADDISON a certificate of insurance or a copy of their insurance policy(s) (and including a copy of the endorsements necessary to meet the requirements and instructions contained herein) evidencing the coverages and coverage provisions identified herein within ten (10) days of request from TOWN OF ADDISON. Contractors shall provide TOWN OF ADDISON evidence that all subcontractors performing work on the project have the same types and amounts of coverages as required herein or that the subcontractors are included under the contractor's policy. Work shall not commence until insurance has been approved by TOWN OF ADDISON.

All insurance companies and coverages must be authorized by the Texas Department of Insurance to transact business in the State of Texas and must have a A.M. Best's rating A-:VII or greater.

Listed below are the types and minimum amounts of insurances required and which must be maintained during the term of the contract. TOWN OF ADDISON reserves the right to amend or require additional types and amounts of coverages or provisions depending on the nature of the work.

Certificate of Liability Insurance forms (together with the endorsements necessary to meet the requirements and instructions contained herein) may be faxed to the Purchasing Department: 972-450-7074 or emailed to: purchasing@addisontx.gov. Questions regarding required insurance should be directed to the Purchasing Manager.

With respect to the foregoing insurance,

1. All liability policies shall contain no cross liability exclusions or insured versus insured restrictions applicable to the claims of the Town of Addison.

2. All insurance policies shall be endorsed to require the insurer to immediately notify the Town of Addison, Texas of any material change in the insurance coverage.

3. All insurance policies shall be endorsed to the effect that the Town of Addison, Texas will receive at least thirty (30) days' notice prior to cancellation or non-renewal of the insurance.

4. All insurance policies, which name the Town of Addison and Garver, LLC, Inc. as an additional insured, must be endorsed to read as primary coverage regardless of the application of other insurance.

5. Insurance must be purchased from insurers that are financially acceptable to the Town of Addison and licensed to do business in the State of Texas.

All insurance must be written or forms filed with and approved by the Texas Department of Insurance. Upon request, Contractor shall furnish the Town of Addison with complete copies of all insurance policies certified to be true and correct by the insurance carrier.

This form must be signed and returned with your quotation. You are stating that you do have the required insurance and if selected to perform work for TOWN OF ADDISON, will provide the certificates of insurance (and endorsements) with the above requirements to TOWN OF ADDISON within 10 working days.

**A CONTRACT/PURCHASE ORDER WILL NOT BE ISSUED WITHOUT EVIDENCE AND APPROVAL OF INSURANCE.**

**AGREEMENT**

I agree to provide the above described insurance coverages within 10 working days if selected to perform work for TOWN OF ADDISON. I also agree to require any subcontractor(s) to maintain insurance coverage equal to that required by the Contractor. It is the responsibility of the Contractor to assure compliance with this provision. The Town accepts no responsibility arising from the conduct, or lack of conduct, of the Subcontractor.

contract, if awarded under the same Terms and Conditions? Yes ☒ No ☐

Bid Bond: Is Bid Bond attached if applicable? ☒ Yes ☐ No ☐

Termination: The town at any time after issuance of this agreement, by 30 days written notice, has the absolute right to terminate this agreement for cause or convenience. Cause shall be the contractor/supplier’s refusal or failure to satisfactorily perform or complete the work within the time specified, or failure to meet the specifications, quantities, quality and/or other requirements specified in the contract/purchase order. In such case the supplier shall be liable for any damages suffered by the town. If the agreement is terminated for convenience, the supplier has no further obligation under the agreement. Payment shall be made to cover the cost of material and work in process or “consigned” to the town as of the effective date of the termination.

Bidder Compliance: Bidder agrees to comply with all conditions contained in this Information and Instruction Form and the additional terms and conditions and specifications included in this request. The undersigned hereby agrees to furnish and deliver the articles or services as specified at the prices and terms herein stated and in strict accordance with the specifications and conditions, all of which are made a part of your offer. Your offer is not subject to withdrawal after the award is made.

The Town of Addison reserves the right to reject all or part of the offer and to accept the offer considered most advantageous to the town by item or total bid.

The Town of Addison will award to the lowest responsible bidder or to the bidder who provides goods or services at the best value for the Town.

I hereby certify that all of the information provided in sections I and II are true and accurate to the best of my knowledge.

SHANNON CAPEZZUTO
Notary Public, State of Texas
Comm. Expires 01-04-2023
Notary ID 10318676

Notary Public in and for Denton County, Texas

BQS-7
J.C. Commercial strives to take the necessary steps to ensure that all projects are completed on time and that no quality is lost under any circumstances. Our staffing approach has been developed to ensure timely flow of information between the owner, architect and the subcontractors. On our projects, each subcontractor acts as a representative on behalf of J.C. Commercial while on the jobsite, and therefore, is handpicked with great caution by Larry Wagnor, President of J.C. Commercial.

- Both the President and Project Manager will handle all contract issues, both owner and subcontractor.
- The Project Manager in conjunction with the Project Superintendent will conduct onsite weekly production meetings with the Town of Addison’s representatives, Addison Airport representatives, Architect, Engineers and the Subcontractors.
- The on-site Field Superintendent will oversee the daily construction of the project and will be 100% devoted to this project only.

The Quality Control Manager is to oversee and coordinate the planning, implementation, and supervision of the project quality control plan. This includes working with employees as well as outside agencies or consultants involved in inspections and testing.

- The Safety Director and/or Safety Manager will conduct regular site visits to provide additional quality control and safety checks. Weekly safety meetings will be conducted with the appropriate trades.
- The Project Engineer will be responsible for submittals, submittal logs, RFI’s, RFI logs and Change Order logs.

Each proposed team member will be readily available at the beginning of this project and will be committed to its completion. Having an experienced and knowledgeable construction team will provide the end product that the Town of Addison and the community will be most proud of.

**Proposed Personnel**

![Proposed Personnel Diagram]

*Resumes for the proposed key project personnel are included within this section.*
LARRY WAGNOR
President / Safety Director

Over forty+ years of experience in the construction industry, where I have gained extensive knowledge and experience in every facet, including but not limited to, sales, marketing, and construction management. Skilled in leading as many as 100 employees and directing the construction and completion of multi-million dollar projects on-time and within budgets.

Prior to forming J.C. Commercial, my experience includes:

- Vice President for a national design-build firm with annual construction sales figures of over fifty million dollars.
- Divisional Manager/Vice President for a recognized construction firm which consistently exceeded one hundred million dollar annual sales volume.

It is this knowledge and these previous experiences that led to the establishment of J.C. Commercial in January 2001. The foundation of my company is built on the highest standards of ethics, hard work, and customer care. It is my mission as President and Owner, to provide value to our customers while maintaining integrity in the process. We use leading edge technology and old fashion customer focus and care. We do everything in our power to deliver projects on-time and within budget, while focusing on quality and safety at all times.

As President, and Owner of J.C. Commercial, I perform as chief-estimator bidding all projects, large and small as well as project managing the more challenging projects. Furthermore, I serve as Safety Director on all projects.

Synopsis of J.C. Commercial’s Project Experience

- Airport Projects: $35,332,052.06
- Education: $53,680,908.07
- Fire Stations: $29,758,478.97
- Libraries: $11,960,674
- Park, Recreation and Aquatic Facilities: $92,674,083
- Additional Municipal Projects: $67,134,918.04
- Tilt Wall Construction: $25,980,351

Recent Notable Accomplishments

Completed four LEED Silver Certified projects and two LEED Gold projects.

Proven Ability

- Competently fulfills roles as: Construction Manager; Project Executive; Business Developer; Overseer of pre-construction work activities.
- Developed budgets for owners and architects, approved budgets and contracts, evaluated bids and selected vendors. Estimated costs, and developed and approved procedures for subcontractor hiring and evaluation.
- Establishes strong standards for all areas of construction and for developing technology. Partners with owners on design and regulatory requirements for proposed projects and worked with owners to meet budgetary requirements using value engineering processes.
- Effectively collaborates with architects and engineers to address cost savings efforts and to ensure total project satisfaction for the project portfolio outlined on the following pages.

Profile

Mr. Arthur joined JC Commercial with over 30+ years of construction experience with him. His diverse portfolio consists of ground up new construction, interior finish out, remodel and renovation.

Terminal D
Jetbridge Modification
DFW Airport, TX

Client
D/FW International Airport

Scope
Selective demolition and construction for gate modifications to accommodate additional boarding bridges, fixed walkways, new PCA (preconditioned air) air handling units, the extension of centralized ground power home run supply cabling from motor generator room and addition of new point of use ground power unit.

This project was a fast paced project to accommodate the arrival the new airbus aircrafts to service the D/FW International Airport.

Prime Consultant
Jacobs Engineering Group

Contract
$3,237,767.09

Type of Construction
Renovations
Terminal B
High Gates Electrification
DFW Airport, TX

Client
D/FW International Airport

Prime Consultant
Parsons

Scope
Demolition of existing equipment making way for the installation of all new equipment including:
- new electrical service to jet bridges,
- new 90Kva ground power units,
- preconditioned air handlers,
- condensate lines,
- sump pumps,
- heat trace and
- controls.

Contract
$ 2,598,770.80

Type of Construction
Renovations
**Client**
City of Dallas

**Architect**
PGAL

**Contract**
$4,205,975.32

**Type of Construction**
New Construction

**Scope**
Developed to house the necessary snow and ice removal equipment required by the Airport. The overall facility is approximately 53,836 square feet and consisted of the construction a two pre-engineered metal buildings with standing seam roof.

The maintenance facility for the equipment occupied 29,103 square feet and the remaining 7,733 square feet incorporated administrative offices, conference room, training rooms, copy/file area with break room, lockers and restrooms.

A secondary structure was built for parking and storage of additional equipment. This is a 17,000 square foot open air facility with a standing seam metal roof. The buildings are surrounded by 30,000 square feet of 5” concrete paving.

All buildings are equipped with fire sprinkler, fire alarm and meet the current energy codes and handicap requirements. This project was LEED Silver.
### 1W Parking North Express Expansion
DFW Airport, TX

<table>

</tr>
<tr>
<td><strong>Contract</strong></td>
<td>$ 8,326,532.93</td>
</tr>
<tr>
<td><strong>Type of Construction</strong></td>
<td>New Construction</td>
</tr>
</tbody>
</table>

**Scope**

This 600,000 sf expansion project spread over a 5 acre site and included: concrete paving, asphalt paving, fire-line construction, storm drain, grading, signage, demolition, erosion control, utility adjustments, pre-engineered canopies and foundations. Coordination was imperative during this project.

Prior to demolition, we were responsible for relocating the existing vehicles in the parking lot, recording the relocation process and all owner notifications. Both pedestrian and vehicle traffic was controlled throughout the duration of the project. DFW’s recycle and resale facility was utilized for all applicable materials. Also included were the sprinkler system redesign and the striping and numbering of all parking spaces.

This particular project was a high profile project for DFW Airport due to the short time line and the holiday revenue they stood to gain from a successful on-time completion. The 90 day time line which was subsequently shorted by a 15 day delay while awaiting the abatement completion and the airport permit process was not a problem for J.C. Commercial.

The owner further requested additional work which included a motorcycle parking area modification at a separate location and the addition of a new bus entrance/exiting area to parking. The expansion was completed on-time and allowed for the day to day operation of the airport’s facilities to continue uninterrupted.
DFW TRIP
Subcontractor
Construction Area
DFW Airport, TX

Client
D/FW International Airport

Prime Contractor
MBJ3 a Joint Venture

Contract
$ 6,127,685.41

Type of Construction
New Construction

Scope
New construction of a trailer complex, North parking lot, offsite subcontractor parking and ROCIP medical center. The owner later requested the inclusion of 7 bus stations to be added onto the project.
Terminal B
Re-gating
DFW Airport, TX

Client
D/FW International Airport

Scope
Demolition of existing Terminal jetbridges. Sawcut existing runway, installed piers for new jetbridges, relocated original existing jetbridges to new foundations and installed all new jet walkways. A new canopy was built and extended existing fire protection. All work completed while airport continued to use neighboring Terminals B17, B20, and 23.

[Images of Hertz, Budget, and AVIS logos]
DCTA
Operations & Maintenance Facility
Lewisville, TX

Client
Denton County Transportation Authority

Architect
Lockwood, Andrews & Newman, Inc.

Contract
$ 14,807,810.00

Type of Construction
New Construction

Scope
The DCTA Operation & Maintenance Facility was the site development of 17 acres with a new 40,000 sf building, 6,000 sf fueling canopy and 1,600 sf storage building. The construction consisted of clearing the 17 acres of trees and debris left from a previous dump site, installing 1’ of select fill to cap the whole site, haul off of material from excavating down 10’ below the finish floor elevation, installing 10’ of engineered fill material below the slab, installing 36” x 40’ deep cased piers, 1’ thick slab on grade with 33’ tall tilt walls, around a 33’ tall clear span metal build with a standing seam roof. The building is located ½ mile from the main entrance. We engineered and constructed a concrete entrance road 24’ wide x 1’ thick and a TXDOT approved turn lane in order to withstand the heavy truck traffic. Special detail was paid to the installation of:

- computerized train wash and air blowers with their state of the art technology;
- administrative and maintenance offices;
- multiple train track installation;
- 3 overhead cranes;
- 6,000 sf train fueling canopy with 40,000 gal in-ground storage tanks;
- and a 1,700’ long concrete drainage channel (26’ wide x 12’ deep).

This vast facility was constructed to serve the DCTA staff and surrounding rail lines for years to come.
Scope

This newly constructed 38,887 sf Grand Theater is designed with tilt-wall concrete, CMU and metal stud walls, finished with brick veneer and polished concrete floors. Standing 3-stories this facility was strategically placed on a 2.257 acre tract in the heart of downtown Lewisville.

The Arts Center incorporates:
- 2,200 sf Proscenium theater,
- 2,733 sf black box theater,
- dressing rooms,
- 1,796 sf administrative suite,
- 2,399 sf multi-purpose room
- 2,343 sf art gallery,
- 2,016 sf for five studios,
- craft wing and more.

A water chiller HVAC system ensures a comfortable atmosphere.

Seating 296 people, this beautifully designed auditorium and stage incorporates an innovative sound system theatrical lighting and rigging.
Hunter Ferrell
Landfill Scalehouse & Office Complex
Irving, TX

Client
City of Irving

Scope
The new construction of an administration building including offices, training room, locker rooms, restrooms, break room, and a reception/lobby area.

Additionally, a new scale house was constructed utilizing transaction windows on two sides along with new roadways to accommodate the two state of the art scale systems for coming and going traffic.

Site amenities for this project included an employee parking lot, a large format retaining wall system that supports the pad for the administration building, extensive fencing, and site lighting.

Architect
CP&Y, Inc.

Contract
$1,893,739.60

Type of Construction
New Construction
Client
City of Dallas

Scope

Sitting on a 14,000 square foot structural slab, Dallas Fire Station 37 stands strong with fully reinforced CMU walls and large structural steel members. It houses four apparatus bays with heavy-duty bi-folding doors, a state of the art fitness room, a full access kitchen, and the City’s first training room to accommodate multiple stations.

A 12-man team can rest comfortably in the three spacious bunk rooms, while the Lieutenant, Captain, Battalion Chief, and Driver each have rooms of their own.

The exterior of the building is comprised of architectural block, metal panels, a TPO roofing system, and a vibrant fire-engine red canopy. DFS 37 has been rated LEED Gold, with 30 geothermal wells acting as heat pumps as deep as 325 feet into the ground. The building is also equipped with a fully-functional solar hot water heating system. With tile flooring, stainless steel finishes, and LED lighting, Dallas Fire Station 37 has a classic modern look that is one of a kind.

Architect

</tr>
<tr>
<td><strong>Contract</strong></td>
<td>$1,618,472.61</td>
</tr>
<tr>
<td><strong>Type of Construction</strong></td>
<td>New Construction</td>
</tr>
</tbody>
</table>

**Scope**

This project consisted of the new construction of 4 separate pre-engineered metal buildings to be utilized for office and warehouse space. Included were two 5,000 sf buildings and two 7,500 sf buildings. Each included its own 1,500-2,000 sf office space.

The four (4) buildings are the first of a total of twenty-seven (27) total buildings to be built within this development.

The project was partially funded with an Economic Development Grant contingent on the stringent completion date and associated M/WBE participation compliance. Being part of a master plan development, a rigorous schedule was necessary for state funding to be awarded.

J.C. Commercial successfully completed the project on time and under budget allowing the owner to receive the designated funding through the Economic Development Grant.
Scope

The White Rock Hill’s Branch Library 18,160 sf. open concept design that takes advantage of the site’s topography and natural features, with library stacks and reading areas overlooking a tree-lined creek that forms the southern edge of the site.

The building’s design concept was based on the form of an open book binder as a natural folded roof structure. The building creates an open configuration with its tectonic structural and mechanical parts exposed as architectural language. A few the unique features of being a LEED Gold Certified Building include energy efficient lighting with daylight harvesting, air conditioning and heating, organic landscape materials, excellent indoor air quality and the use of local building materials.

Other key features include: over 100 parking spaces, public meeting space seating 100 with kitchenette and restrooms that can be closed from the building for after-hours use, classroom space that can be divided into two meeting areas seating 24. This area can also be closed from the library and accessed after-hours, houses 45,000 to 50,000 volume collection of books and media, public computer workstations and laptops for public use, drive-up access for book and media return.
Renovation of 25,400 square feet of existing office and former jail space. The 11 phases of construction allowed for uninterrupted day to day use of the facility. The construction consisted of the demolition and relocation of the holding cells, evidence storage, evidence processing, drug storage, locker rooms, interrogation rooms, dispatch offices and police official offices.

The special challenges that this project presented was the detailed phasing plan that would allow for the continued use of the building while the remodel took place. This required the relocation of some of the office staff in temporary trailers located on site. The new holding cells had to be built before the existing ones could be demolished. The phasing plan was designed by J.C. Commercial with input from the Police Department. It was adjusted throughout the project to fit the ongoing use of the building and the construction schedule.
SAFETY ASSURANCE

Safety demands commitment!

As a General Contractor, we have an obligation to ensure that all our employees and subcontractors are afforded the protection of an appropriate safety program.

J.C. Commercial has adopted a comprehensive safety program that has been distributed and implemented by all Project Managers, Field Superintendents, Project Engineers and Subcontractors. It addresses our specific safety concerns and provides guidance for the performance of individual job tasks within the framework of appropriate OSHA standards.

Additionally, our diligence in obtaining quality subcontractors and employees, in conjunction with our thorough training, lays the foundation for a safe work setting at all of our jobsites.

As a result, we at J.C Commercial are proud to have a proven safety record which reflects how serious our company is about a safe work environment.

J.C. Commercial takes great pride in that our due diligence in the intricacies of safety to report that we have had no occupational deaths, explosions, fires, or collapse of any temporary or permanent structure.

Larry Wagnor is and has been the Safety Director for J.C. Commercial since the formation of the company. As the above clearly shows, he has the years of experience and the continued education of OSHA standards which he and our Safety Manager pass on to every Project Manager, Project Engineer, Superintendent and job site.

This thorough training of all employees in the safety policies/ guidelines has maintained our assurance of OSHA compliance on all projects.

### Additional safety measures include:

- All Project Managers, Project Engineers and Superintendents are OSHA certified.
- Resources provided for bi-annual OSHA recertification classes, as required by J.C. Commercial, Inc.
- Weekly safety meetings and site visits are conducted on all jobsites.
- Weekly safety meetings incorporate Toolbox Topics addressing current phase of project.
- Project Managers/Safety Managers and Superintendents ensure safety and compliance with OSHA standards as well as adhering to the J.C. Commercial Safety Program.
- OSHA posters posted at each job site along with Safety Program and First Aid/Emergency Supplies. Furthermore, directions to nearest emergency facility are posted at this same location at each job site.
- Employee and Subcontractor handbooks are signed by each certifying agreement to all safety measures.
- Mandatory requirement that all visitors to the job site must be checked in and issued an ID badge.

SAFETY IS IMPERATIVE AT ALL TIMES!
From beginning to completion our goal is to produce an end product that all will be most proud of for years to come. This doesn’t just include J.C. Commercial but also our Owners, Architects, and community as a whole. We measure success by the positive relationships that we will form with your representatives and the possibility of future opportunities that could unfold.

We like for all of our clients to be repeat customers. Nothing but quality and owner satisfaction is acceptable!

Subject: The REC Stairwell Project in Grapevine

Larry,

As I am sure you are aware the stairwell project at The REC of Grapevine is complete. I wanted to pass on my appreciation to JC Commercial directly to you regarding the professionalism, work ethic, and follow through demonstrated by the 2 JC Commercial employees that were on site at various times throughout the project. I want to commend John Thorp and Michael Piscopo for the effort they put in to complete the project. Both demonstrated a high level of communication, dedication and support to The City of Grapevine and especially myself during the construction process. The work was taking place in the middle of a recreation center with 18,000 members coming and going all day long. John was on site daily to make certain no shut downs were necessary and that the area remained safe to our patrons the entire time. John managed the contractors effectively and was able to get a beautifully finished project in the end. Michael stayed on top of RFIs, the schedule, pay apps, etc.

This project was a tough one to complete due to the location of the stairs, the type of facility we operate, our operating hours, etc but a want to make sure you know I appreciate the work your team put in during the entire process.

Please do not hesitate to call me if you have any questions or need anything from me. I look forward to working with JC Commercial in the future if our paths have a chance to cross again.

Chris Smith  
Deputy Director  
Phone: 817.410.3473

To Whom It May Concern:

Please accept this letter of my highest recommendation of the construction firm, JC Commercial, Inc. I have had the opportunity to work with JC Commercial, Inc. over the last 9 months through a building expansion project for the City of Midlothian’s Senior Citizen Activity Center.

JC Commercial, Inc. has demonstrated a professional and ethical caliber during this time. Utilizing quality sub-contractors has proved to be a definite strength of JC Commercial, Inc. Schedules have been maintained and the project was completed on time.

Understanding that it takes highly qualified personnel to maintain good, relationships, JC Commercial, Inc. has provided exceptional staff that stay involved and accessible throughout the project.

If you need further information, please call me at 972-775-7152.

Sincerely,

Adam Mergener
Director of Public Works
City of Midlothian

104 West Avenue E. Midlothian, Texas 76065

Re: Letter of Recommendation
J.C. Commercial, Inc.
1865 McGee Lane, Suite O
Lewisville, TX 75077

To Whom It May Concern:

As the Chief Executive Officer at Jubilee Park and Community Center Corp., I had the great opportunity to work with J.C. Commercial, Inc.

J.C. Commercial, Inc. has demonstrated the skill and ability to construct an Early Head Start building on our campus. Their ability to meet schedules, cost, quality, and professionalism made them a construction company I would be willing to work with again. The completed work met all our expectations.

Jubilee Park and Community Center Corp. would welcome the opportunity to work with J.C. Commercial, Inc. on future projects. If you have any further questions or in need of additional information please do not hesitate to contact me at 214-887-1364 ext. 242 or via email at BLEal@JubileeCenter.org.

Regards,

[Signature]

Ben J. Leal
Chief Executive Officer
Jubilee Park
J.C. Commercial completed 2 more contracts: the Plano City Hall Irrigation & Landscaping project which was completed ahead of schedule and the Buckhorn Park Renovations. *Both of these projects received early completion bonuses!*

It’s been a pleasure working with you. I appreciate the great work that you and your team have done for us and we have a beautiful park to show for it. I am impressed with your ability to be flexible and provide good options for us as changes to the plans and in the field dictated. Thankfully, we worked through them all.

Buckhorn Park is a special and unique place for our residents thanks to you and JC Commercial.

*Angela Kralik*

Re: Plano ISD Projects

Mr. Wagnor:

On behalf of Plano ISD, I would like to take this opportunity to personally say thanks to you and the JC Commercial team for your successful completion of Clark Athletic Fields including bleachers, press box and pedestrian bridge in 2008, completion of Williams Field House in 2007, and your most recent completion of the Concession and Storage addition at Clark Stadium in 2010.

Thanks for your continued dedication and commitment to Plano ISD.

I look forward to working with JC Commercial on future projects. Please feel free to use my name and Plano ISD as a future reference.

Sincerely,

Doug Guynes, Construction Manager, Plano Independent School District
JC Commercial has extensive experience when it comes to M/WBE Participation Plans and the requirements there of. Our company has in the past and will continue to build quality projects with M/WBE requirements. On our projects, each subcontractor acts as a representative on behalf of J.C. Commercial while on the jobsite, and therefore, is handpicked with great caution.

Our company continually searches for and obtains many qualified M/WBE certified contractors to bid all of our projects. We utilize sources such as:

- Texas Unified Certification Program’s (TUCP) Directory
- Dallas/Fort Worth Airport’s D/S/M/WBE database
- Centralized Master Bidders List – HUB Directory

It is our policy to always maintain a minimum of 3 HUB and 3 NCTRCA certified subcontractors per every trade within each division of construction on our bid list for every project.

Furthermore, J.C. Commercial has in the past and continues to participate in public events to allow us to meet local MWBE subcontractors. We have participated in the Business Coaching (Mentor / Protégé) Program. Most recently, our company took part in the City of Dallas’ Vendor Symposium and the annual Blue Book Building & Construction Showcases.

These opportunities provide us the forum to have one on one meetings with M/WBE subcontractors.

Although, our company is not a minority owned company we have a history of utilizing such firms at noted below:

</table>

J.C. Commercial is dedicated to meeting all Owner’s M/WBE goals.
Since the formation of JC Commercial our primary focus of construction has been municipal work within the state of Texas. Over the years we have successfully completed a diverse portfolio of various types of construction whether it is renovation or new construction. This includes Parks, Aquatic Centers, Libraries, Fire Stations, Educational Institutions and more. We take great pride in the delivery of every project. Quality and schedules are taken very serious. From the beginning to completion our goal is to produce an end product that all will admire.

JC Commercial measures success by the positive relationships that we will form with the Town of Addison and the possibility of future opportunities that could unfold. With that being said, our projects and their owner’s can attest to our change order history, quality control and schedule adherence. Furthermore, our record of on-time completions, numerous early completion bonuses and repeat customers speaks loudly to our commitment to quality, cost control and scheduling. Our company has completed over $260 million construction projects within Texas and without any Owner litigation. **This includes numerous new construction projects for aviation facilities.** Our most recent projects have been for the following:

- City of Irving
- Rockwall ISD
- City of Dallas
- Grand Prairie Municipal Airport
- Love Field Airport
- City of Irving
- DFW International Airport
- City of McKinney

The Addison Airport Customs and Border Protection Facility project will require a contractor that has an extensive knowledge of differing construction practices and a work history that shows that they have the ability complete the job safely and on time. J.C. Commercial possesses the knowledge, experience and ability to achieve these goals.

**CHALLENGES**

Your project presents logistical and construction challenges that will require careful planning and attention to detail. The ability to be flexible, to schedule and coordinate the construction work is the most important aspect of this job.

We will develop for this site a detailed safety plan and site access plan that will allow for the staging’s that will be required in order to take advantage of every available work day. We will develop a plan that will allow for materials to be delivered and stored so that it will not interfere with the construction progress or nearby operations.

- Safety is crucial and our Safety Record shows how serious we are!
- Communication will be key.
- Timely turnaround on Submittals, RFI and Change Order/Proposal Requests will be imperative.
- Airport access.

In order to control the quality of all trades, we will have meetings with each one before they start work. In these meetings we will review their safety procedures and the construction work plans. These will be approved before they start work and reviewed weekly in their weekly sub meetings.

**EXPERIENCE OVERCOMING THESE CHALLENGES**

As you can see this project cannot be taken lightly.

Upon review of our project experience, you will see, J.C. Commercial has the ability to complete projects of varying sizes and complexity safely, on time and within budget. Our safety record and workers compensation modifier is one of the lowest in the industry. We accomplish this by planning, scheduling and paying attention to detail.

Our company has proven our exceptional ability to provide both construction services and construction management services with our proposed project team. Furthermore, we have the financial and insurance capability as well as the bonding capacity to make this project something Town of Addison will be most proud of.
