Re: Response to the Town of Addison's Invitation to Bid
"RFP#20-41 Fireworks Display Services"

Dear Sir or Madam,

Pyro Shows is pleased to enclose a fireworks proposal in response to your Invitation to Bid on the Town of Addison's fireworks display on July 3, 2020, 2021, and 2022. Our proposal complies with the specification requirements. We understand the terms and conditions of the bid, with no exception.

The Pyro Shows proposal includes all fireworks, labor, delivery, and permits. There are no additional costs. Our also proposal includes \$10,000,000.00 comprehensive general liability insurance. All of our vehicles are covered by \$10,000,000.00 automobile insurance, and our technicians are covered by workers compensation.

After you have an opportunity to review the enclosed information, please call our office with any questions you may have. We have enjoyed 30 years of supplying the Town of Addison with its Kaboom Town Fireworks and look forward to many more successful years. Thank you for the opportunity to once again serve the City of Addison.

Sincerely,

Chad Stanley

3: Organization Overview

Pyro Shows, Inc. is celebrating 50 golden years this year! Before our corporate office in Tennessee and our additional offices in Texas and Alabama, we had to start somewhere. That place in time was 1969 when Lansden Hill, Jr. began a professional fireworks service. Rave reviews of the shows would prove that he appropriately named the company Pyro Shows. With each passing year of business, Pyro Shows maintained the momentum and achieved success both nationally and internationally.

2019 is our year to celebrate the milestone of successful fireworks entertainment throughout the world for half a century (AKA “a long time”). From Stockholm, Sweden, to San Sebastian, Spain, and from Abu Dhabi in the UAE, to Taipei, Taiwan, Pyro Shows has competed in some of the most prestigious international competitions. Pyro Shows won first place in the North American Fireworks Competition in Norfolk, Virginia, and has had the honor to provide the 4th of July fireworks at the Washington Monument in Washington, D.C. for 13 times since 1995. That is a 50-year legacy of happiness generated by fireworks!

4: Organization Staffing

Lansden Hill is the owner of Pyro Shows of Texas. He has successfully managed and run one of the largest professional fireworks display companies in the US for over 50 years.

Mike Walden is the President of Pyro Shows of Texas, formally Atlas Enterprises, since its inception in 2013, and has over 25 years in the business.

Chad Stanley is the General Manager from January of 2018 to present and was the Operations Manager from 2013 – January of 2017, the Inventory manager for Atlas Enterprises from 2007 - 2013 and has over 19 years of experience in professional fireworks. Chad is also our lead show designer/producer and has over 7 years of experience choreographing every show that Pyro Shows of Texas has produced in the last 7 years, including Addison Kaboom Town. Chad also has the privilege of being the lead technician and primary contact for Addison Kaboom town and was an assistant on Addison Kaboom town for 11 years prior to taking the lead.

Daniel Chadwick is our Operations/Inventory Manager and has over 12 years experience.

Garrett Hill has over 10 years of experience in the fireworks industry and fireworks music/sound production.

Pyro Shows has over 50 years in the fireworks business and has shot displays for many major and minor events. Those events include Super Bowls, the Washington Mall, Nashville Fourth and New Year's Eve, the Woodlands Township, and of course, Addison Kaboom Town since the beginning of the event, and more professional fireworks displays than any other company shot in Texas.

5: Agency Experience

Pyro Shows has been blessed with the opportunity to display fireworks to a so many people around the world. Below is a list of Texas based shows that we have shot in the last 5 years. Each with shells fired of at least 5” in diameter, and all without a single injury, to audience, or personnel.

7. Organizational Design Approach

All shows are different, even amongst Independence Day Celebrations. Some cities want their show to barely clear the tree line and be choreographed to a more conservative style with nearly all patriotic music to be seen only by those in a specific location. Other cities, like Addison, want to wow record breaking crowds with exciting effects, a blend of traditional and modern music, and the very best in show production. We take samples from traditional patriotic pieces, mix in a couple old favorites that everyone can sing along with and top it off with some of the hottest top 40 hits from 2019 and 2020. Of course, all songs will be approved and/or come from a preapproved list from the Town of Addison.

We love to show off our control of certain effects with quick punctuation points, immediate effect changes and perfectly selected effects for the specific song. In a show such as Addison Kaboom Town it is important to have every single element available. Every trick in the choreography book from sudden barrages on a high point, to soft drifting effects in a low point. Of course, no show is complete without our famed 2-minute-long finale. No other show in the state has such a thing. It was developed between Pyro Shows of Texas and the Town of Addison.

From a production standpoint, we will be rivaled by no other. We set a deadline for music production, scripting and choreography so that Addison Kaboom town contains the very best fireworks in our inventory. You won't be getting the leftovers. We show up on time. We staff more than enough competent and trained crew members. We work on only specific points of the show at a time with only minimal fireworks out of the storage truck to minimize weather exposure and a larger incident should there ever be an accidental ignition. We follow NFPA 1123, DOT regulations, and IFC strictly as well as our own additional safety standards. We also use a proprietary mortar covering system that both protects the fireworks from inclement weather, up to and including near hurricane force winds, and also provides a level of safety to our crews as they can easily see if something has not fired after the show.

A very important aspect of a show like this is crew health. We have mandatory water breaks, heat breaks, and food breaks to ensure each crewmember is safely available to complete the show. We complete the load in of shows well ahead of schedule and we are self-sufficient to the point that the Town of Addison will not have to worry about the Kaboom Town Fireworks going off when they are supposed to.

8. Proposed Show Implementation

This request is a bit more difficult. While I can provide you with a list of all the shells we inventory and their origins and effects, it would be disingenuous for me to say specifically that this shell or that shell will be in the show, before we have even worked on the music. The reason for this is that we choreograph Addison Kaboom town directly to the songs pre-selected by the Town of Addison. We hand pick each effect and shell size to fit exactly with each song. Without having the music selection completed at this time, those numbers and shell descriptions would be simply made up. What I can tell you is that the Addison Kaboom town show has been amazing for the last 30+ years and the it has been nationally recognized for the last 15 years. That is no small feat and is indicator of a perfect working relationship with Pyro Shows and the Town of Addison. A show this big requires all parts to run like a well-oiled machined. This year's show will start with a simple, instrumental only, well recognized music track playing to catch everyone's attention. At that point a voice over will begin, over the music, welcoming everyone to the 2020 Addison Kaboom Town show. There will be a few fun facts included about the size and the national ranking of the show to really show case what is about to take place. Following the introduction, the song will crescendo into a high point that welcomes the massive crowds to the 2020 Addison Kaboom Town fireworks display with huge sky filling breaks of 4", 5" and 6" shells. At this point everyone for miles around will know that Addison Kaboom Town has begun, and all the long lines and traffic were well worth the effort. A solid 2-3-minute opening show will really get the crowd into the event. For the opening, a song choice with a solid beat and catchy, powerful lyrics will be best. One of the keys to a successful fireworks display is a good eb and flow. This keeps the audience wondering what could be next and their eyes locked on the show. To do that we bring the crowd to high points with hard hitting songs in the opening and then slowly fade down to cover some of the classics like Lee Greenwood's God Bless the USA with slow firing but ornate and elaborate shell effects, the armed forces medley and the famed stars and stripes, or Washington post with a faster paced barrage of color changing effects to match the scene and tempo. Slow Modern pop and rock are mixed in, to really amp up the show. Songs like Thunder from Imagine Dragons and its hundreds upon hundreds of salutes that can be heard across the metroplex, and Heroes live forever, by Vanessa Amerosi with its beautiful heart pattern shells, and multi petalled chrysanthemums. We rise and fall throughout the show to build to an ultimate peak. A huge false finale of 3, 4, 5 and 6" Gold glittering brocade shells fills the sky. 45 – 60 seconds of nothing but magnificent gold, gold and more gold. All of this to be to be topped by none other than the world-famous Addison Kaboom Town/ Pyro Shows of Texas 2-minute finale. This 2-minute-long barrage is an all-out assault on the Pyro Shows Inventory. A variety of nearly every single effect we have will be launched into the sky in this firework free for all. A fast paced,

high intensity song is the only choice for this portion of the show. This portion of the show contains more than half the number of shells that are in the opening and main body combined. No one will be sitting in their seats when the last shell breaks. As the music dies, a walk out song will come on which will include a voice over thanking everyone for their attendance and will include traffic delay notices and instructions. Our basic premise is to keep the crowd wanting more while also giving them scenes with effects they can relate to the specific song. The Skyfall scene from past Addison Kaboom town shows is a prime example of this. It was only 3 songs into the show and the entire sky erupts in silver crackling comets filling up every inch of the canvas. Or the Thunder scene which mixes beautiful white strobe peonies with massive 4" salutes to cover the thunder and lightning but quickly switches to a rainbow of waterfall shells in the soft spots. The crowds really get into these types of effects. We have years and years and years of experience not only producing Addison Kaboom town, but also many other national and world ranked shows, such as the Washington D.C. show, Austin New Year's Eve, Nashville New Year Eve and 4th. This will not be our first trip into the spotlight which leaves the Town of Addison in a position to have one less thing to worry about. One thing you will not see in our shows is choreographed darks sky longer than 2-3 seconds. Dark sky is an important choreography tool to heighten the moment, but no more than 2-3 seconds at time. Longer than that will result in loss of crowd interest or perceived issues with show production. Dark sky also does not work well for the portion of the audience who is not listening to the soundtrack. If that is the case, they just see "no fireworks" and become disinterested, not realizing that it could be part of the show. For this reason, we avoid dark sky longer than 2-3 seconds. Pyro Shows is no stranger to big shows and is certainly no stranger to Addison Kaboom town. For years we have produced stellar, on your feet shows, that have been a huge part in bringing Addison Kaboom Town to the top of the national list. We use the industry leading scripting software, sound mixing programs, and number one digital firing systems to make sure everything is a success.

In regard to timing, for your budget, we provide a set minimum number of fireworks. What that means is two things. One, when choreography takes place, if more shells are needed to make the scene perfect than were originally put in the bid, then they get added in. We never use less shells than are in the bid, but very often use more to get the choreography just right. Number two is concerning the show duration. We prefer that the show be exactly as long as the Town of Addison wants it. We can shoot that predetermined number of shells in any time frame our client would like. That means if you would rather have the 25-minute show, we have you covered. Or, if you prefer the 30-minute show, we also have you covered and anywhere in between or outside of those marks. You are not locked into any show time frame with our bid. You can have it however you like. What happens in those instances is we simply spread out the

density of the fireworks to match the choreography and the duration of the show. It is a perfect world for the Town of Addison as the flexibility of the show is all yours.

In no circumstances will you receive less shells because you choose a shorter duration show. The show will simply have more fireworks being fired at one time than it would if the show was spread out longer. Duration will only change density. Every aspect of this will take place with complete communication with the Town of Addison. From a professional opinion though, crowd attention is an important factor in the enjoyment of a show. Even the best laid shows start to lose the crowds around the 28-minute mark. We recommend the fireworks portion of the show never last longer than 30 minutes. 30+ years of doing Addison Kaboom town has allowed us to perfect it.

For reference, the 2019 Addison Kaboom Town show soundtrack was 33 minutes long. There was 1:09 of intro that included the intro and lead in music before the fireworks started. The actual fireworks portion of the show was 26:45. The walkout music with voice over was approximately 5:22.

Below is minimum total for the shell sizes you will receive in the show based on the opening, main body and finale of the show.

\$75,000.00

Opening:

- (50) 3" Ball Style Color Shells
- (10) 3" Titanium Salutes
- (90) 4" Ball Style Color Shells
- (110) 5" Ball Style Color Shells
- (10) 5" European Style Cylinder Shells
- (110) 6" Ball Style Color Shells
- (10) 6" European Style Cylinder Shells

Main Body:

- (340) 3" Ball Style Color Shells
- (510) 4" Ball Style Color Shells
- (500) 5" Ball Style Color Shells (continued on next page)

(180) 5" European Style Cylinder Shells

(580) 6" Ball Style Color Shells

(100) 6" European Style Cylinder Shells

Finale:

(800) 3" Round Ball Color Shells (530 Color Shells and 270 Titanium Salutes)

(420) 4" Round Ball Color Shells

(160) 5" Round Ball Color Shells

(20) 5" European Style Cylinder Shells

(110) 6" Round Ball Color Shells

(17) 6" European Style Cylinder Shells

For a Grand Total of:

(1200) 3" Shells

(1020) 4" Shells

(980) 5" Shells

(127) 6" Shells

It should be stated that the majority of our fireworks shot in the US come from China. That is the case for every single company in the US. We have seen it many times where a company claims to have American made product when really all they have done is had their fireworks display company name put on the box and claim that it is a domestic product, while being manufactured in China. Even a couple of the major Chinese companies have US names and offices here in the US, but the product all still comes from the same place. With that being said, we also purchase product from Spain, Japan, and of course the USA. Our American product is 100% produced on US soil and packaged on US soil. It should be noted, however, that in the 3" and 4" shells, there is no visible difference in any of the origin's shells, and in the 5" and 6", there are only minor visual advantages that in our opinion, don't usually outweigh the much greater cost of using those products. For instance, we can shoot just over (4) 6" shells from China, for the price of (1) 6" Spanish shell, and the number is 6:1 for American product. I have also included a list with this proposal of all available shells for 2020 in 3"-6" varieties. There is also a list of common fireworks effects terms so that you may better visualize each of the effect names, to go along with their colors. Both items are included at near the end of this document.

9. Statement of Verification

Addison Kaboom Town has been our number one priority show for as long as it has been around. It is the first Independence Day show we choreograph, and the fireworks selection comes from our largest inventory of the year. We also special-order specific effects to be set aside for Addison Kaboom Town. We are one of the largest importers of professional fireworks in the nation and certainly the largest in the state. This gives us a massive selection of the finest fireworks to choose from, as well as the peace of mind to know we will always have the inventory to complete the show.

The crew is made up of nearly all licensed crew leaders from other large 4th shows around the state. That means you are NOT getting one guy that knows how to do all the work and a bunch of worker bees. You have over two dozen well trained individuals that each know exactly what their role is and how to complete it, led by a crew leader with 19 years of experience in shooting the very best shows, and backed by one of the oldest companies in the USA.

We fire the show with the very best in digital firing systems, with multiple redundancies. Fire One is the only firing system to trust in this matter. It's controllability and safety features are rivaled by no other brand.

Addison is getting the best of the best fireworks, crew, and production capabilities and equipment. Our continued success with Addison Kaboom town includes zero injuries to the public, or crew, and never has the Addison Kaboom Town show not been fired.

We also have many, many years of working with The Town of Addison, the Addison Airport staff, Addison Police Department, Jack FM and now Star 102.1, and the local and national media. This experience alone is worth it's weight in gold towards a smooth-running production and show execution.

10. Fee Structure \$75,000.00

Pyro Shows of Texas provides a turnkey production. We do not bill you for anything other than the initially agreed upon show value. The show value is \$75,000. That is what your invoice will be. We do not charge extra for music production, choreography, or administration fees. This means more of your funds go to the fireworks shell count of the show. In multi-year contracts such as this one, there will be no increase in the budget from our perspective or change in another aspect of our proposal. Shell counts will stay the same. Show duration will stay the same. The only aspect of our proposal and contract that would change, would come at the request of the Town of Addison.

11. Standard Contract

All aspects of this contract are negotiable except section VII on Compliance and Regulations.

Contract Agreement

This Agreement made this _____ day of _____, _____, by and between PYRO SHOWS OF TEXAS, Inc., a Texas Corporation, whose address is 6601 Nine Mile Azle Road, Fort Worth, Texas, 76135, and hereinafter referred to as "**PYRO SHOWS OF TEXAS**" and _____ with its principle place of business located at _____, in the State of _____, hereinafter referred to as "Customer".

8. Additional information regarding effects

Display Fireworks Effects Glossary

Brocade - large number of spark trailing stars falling slowly in an umbrella pattern.

Cake - A cluster of small tubes, linked by fuse, that fire small aerial effects at a rapid pace. Tube diameters can range in size from ¼ inch to 4 inches and can sometimes have over 1,000 shots. These are often used in large quantities as part of a show's finale. The variety of effects within individual cakes is often such that they defy descriptive titles. Others are simply quantities of 2.5"-4" shells fused together in single-shot tubes.

Chrysanthemum - A spherical break of colored stars, similar to a peony, but with stars that leave a visible trail of sparks.

Crossette - A shell containing several large stars that travel a short distance before breaking apart into smaller stars with a loud crackling sound, creating a crisscrossing grid-like effect.

Dahlia- Stars travel a longer-than-usual distance from the shell break before burning out, similar to peony shell but with fewer and larger stars, some shells are cylindrical rather than spherical to allow for larger stars.

Falling Leaves - Stars twinkle and flutter down.

Farfalle - Italian Butterfly.

Fish - Large inserts that propel themselves rapidly away from the shell burst, often looking like a fish swimming away.

Mine - A ground firework that expels stars and/or other garnitures into the sky; consists of a canister with the lift charge on the bottom with the effects placed on top, shot from mortar like a shell. Mines can project small reports, serpents, small shells, and stars. Mines are usually between 3 and 5 inches in diameter.

Multi-Break shell - Large shell containing several smaller shells of various sizes and types. The initial burst scatters the shells across the sky before they explode. When a shell contains smaller shells of the same size and type, the effect is usually referred to as "Thousands".

Palm Tree- Rising comet (trunk) that bursts into six large trailing stars (fronds) and can also have small reports (coconuts).

Pattern Shells - Aerial shells that look like maple leaves, rings, butterflies, Saturn, hearts, bows, smiley faces, snails, and more.

Peony - A spherical break of colored stars. Peony is the most commonly seen shell type.

Pistil - The center sphere of stars in a spherical burst shell which contains an outer sphere of stars.

Crackling Rain - An effect created by large, slow-burning stars within a shell that leave a trail of glittering sparks behind and make a loud sizzling noise.

Roman Candle - A long tube containing several large stars which fire intermittently at a regular interval. These are commonly arranged in fan shapes or crisscrossing shapes at a closer proximity to the audience. Some larger roman candles contain small shells (bombettes) rather than stars.

Salute - Shell containing a large quantity of flash powder rather than stars, producing a quick flash followed by a large report. Salutes are commonly used in large quantities during finales to create intense noise and brightness. They are often cylindrical in shape to allow for a larger payload of flash powder, but ball shapes are common as well.

Set Piece - These utilize a number of colored lances (small flares) which all together form a pattern or word. They typically burn for one minute.

Spider - Shell containing a fast burning tailed or charcoal star that is burst very hard so that the stars travel in a straight and flat trajectory before burning out. This appears in the sky as a series of radial lines much like the legs of a spider.

Strobe - Colored stars that flash on and off.

Tourbillion - A small, rotating device fired from candles, mines or shells which throws out sparks as it rotates eccentrically; it ascends and revolves at the same time.

Waterfall - Named for the shape of its break, this shell features heavy long-burning tailed stars that only travel a short distance from the shell burst before free-falling to the ground. Sometimes there is a glittering through the “waterfall”

Print or type. See Specific Instructions on page 3.

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an Information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
 - Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
 - Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
 - Form 1099-S (proceeds from real estate transactions)
 - Form 1099-K (merchant card and third party network transactions)
 - Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
 - Form 1099-C (canceled debt)
 - Form 1099-A (acquisition or abandonment of secured property)
- Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding*, later.

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

FORM CIQ

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. See Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

House Bill 89 Verification Form

Prohibition on Contracts with Companies Boycotting Israel

The 85th Texas Legislature approved new legislation, effective Sept. 1, 2017, which amends Texas Local Government Code Section 1. Subtitle F, Title 10, Government Code by adding Chapter 2270 which states that a governmental entity may not enter into a contract with a company for goods or services unless the contract contains a written verification from the company that it:

- 1) does not boycott Israel; and
- 2) will not boycott Israel during the term of the contract

Pursuant to Section 2270.001, Texas Government Code:

1. "Boycott Israel" means refusing to deal with, terminating business activities with, or otherwise taking any action that is intended to penalize, inflict economic harm on, or limit commercial relations specifically with Israel, or with a person or entity doing business in Israel or in an Israeli-controlled territory, but does not include an action made for ordinary business purposes; and

2. "Company" means a for-profit sole proprietorship, organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, or any limited liability company, including a wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate of those entities or business associations that exist to make a profit.

I, (authorized official) Chad Stanley, do hereby depose and verify the truthfulness and accuracy of the contents of the statements submitted on this certification under the provisions of Subtitle F, Title 10, Government Code Chapter 2270 and that the company named below:

- 1) does not boycott Israel currently; and
- 2) will not boycott Israel during the term of the contract; and
- 3) is not currently listed on the State of Texas Comptroller's Companies that Boycott Israel List located at <https://comptroller.texas.gov/purchasing/publications/divestment.php>

Indemnification Agreement

Contractor's Indemnity Obligation. Contractor covenants, agrees to, and shall DEFEND (with counsel reasonably acceptable to Owner), INDEMNIFY, AND HOLD HARMLESS Owner, its past, present and future elected and appointed officials, and its past, present and future officers, employees, representatives, and volunteers, individually or collectively, in both their official and private capacities (collectively, the "Owner Persons" and each being an "Owner Person"), from and against any and all claims, liabilities, judgments, lawsuits, demands, harm, losses, damages, proceedings, suits, actions, causes of action, liens, fees (including attorney's fees), fines, penalties, expenses, or costs, of any kind and nature whatsoever, made upon or incurred by Owner and/or Owner Person, whether directly or indirectly, (the "Claims"), that arise out of, result from, or relate to: (i) the services to be provided by Contractor pursuant to this Agreement, (ii) any representations and/or warranties by Contractor under this Agreement, (iii) any personal injuries (including but not limited to death) to any Contractor Persons (as hereinafter defined) and any third persons or parties, and/or (iv) any act or omission under, in performance of, or in connection with this Agreement by Contractor or by any of its owners, directors, officers, managers, partners, employees, agents, contractors, subcontractors, invitees, patrons, guests, customers, licensees, sublicensees, or any other person or entity for whom Contractor is legally responsible, and their respective owners, directors, officers, directors, officers, managers, partners, employees, agents, contractors, subcontractors, invitees, patrons, guests, customers, licensees, sublicensees (collectively, "Contractor Persons"). **SUCH DEFENSE, INDEMNITY AND HOLD HARMLESS SHALL AND DOES INCLUDE CLAIMS ALLEGED OR FOUND TO HAVE BEEN CAUSED IN WHOLE OR IN PART BY THE NEGLIGENCE OR GROSS NEGLIGENCE OF OWNER OR ANY OTHER OWNER PERSON, OR CONDUCT BY OWNER OR ANY OTHER OWNER PERSON THAT WOULD GIVE RISE TO STRICT LIABILITY OF ANY KIND.**

Contractor shall promptly advise Owner in writing of any claim or demand against any Owner Person related to or arising out of Contractor's activities under this Agreement and shall see to the investigation and defense of such claim or demand at Contractor's sole cost and expense. The Owner Persons shall have the right, at the Owner Persons' option and own expense, to participate in such defense without relieving Contractor of any of its obligations hereunder. This defense, indemnity, and hold harmless provision shall survive the termination or expiration of this Agreement.

The provisions in the foregoing defense, indemnity and hold harmless are severable, and if any portion, sentence, phrase, clause or word included therein shall for any reason be held by a court of competent jurisdiction to be invalid, illegal, void, or unenforceable in any respect, such invalidity, illegality, voidness, or unenforceability shall not affect any other provision thereof, and this defense, indemnity and hold harmless provision shall be considered as if such invalid, illegal, void, or unenforceable provision had never been contained in this Agreement. **In that regard, if the capitalized language included in the foregoing indemnity is so determined to be void or unenforceable, the parties agree that:**

(i) the foregoing defense, indemnity, and hold harmless obligation of Contractor shall be to the extent Claims are caused by, arise out of, or result from, in whole or in part, any act or omission of Contractor or any Contractor Persons; and

(ii) notwithstanding the provisions of the foregoing subparagraph (i), to the fullest extent permitted by law, Contractor shall INDEMNIFY, HOLD HARMLESS, and DEFEND Owner and Owner Persons from and against all Claims arising out of or resulting from bodily injury to, or sickness, disease or death of, any employee, agent or representative of Contractor or any of its subcontractors, regardless of whether such Claims are caused, or are alleged to be caused, in whole or in part, by the negligence, or any act or omission, of Owner or any Owner Persons, it being the expressed intent of Owner and Contractor that IN SUCH EVENT THE CONTRACTOR'S INDEMNITY, HOLD HARMLESS, AND DEFENSE OBLIGATION SHALL AND DOES INCLUDE CLAIMS ALLEGED OR FOUND TO HAVE BEEN CAUSED IN WHOLE OR IN PART BY THE NEGLIGENCE OR GROSS NEGLIGENCE OF OWNER OR ANY OTHER OWNER PERSON, OR CONDUCT BY OWNER OR ANY OTHER OWNER PERSON THAT WOULD GIVE RISE TO STRICT LIABILITY OF ANY KIND. The indemnity obligation under this subparagraph (ii) shall not be limited by any limitation on the amount or type of damages, compensation, or benefits payable by or for Contractor under workers compensation acts, disability benefit acts, or other employee benefit acts.

I understand that the indemnification provisions are required of all Town of Addison Contracts. I have read the provisions and agree to the terms of these provisions.

Change of Address (27 CFR 555.54(d)). Licensees or permittees may, during the term of their current license or permit, relocate their business or operations to a new location, at which they intend regularly to carry on such business or operations. The licensee or permittee is required to give notification of the new location of the business or operations not less than 30 days prior to such removal with the Chief, Federal Explosives Licensing Center. The license or permit will be valid for the remainder of the term of the original license or permit. (The Chief, FELC, shall, if the licensee or permittee is not qualified, refer the request for amended license or permit to the Director of Industry Operations for denial in accordance with § 555.54.)

Right of Succession (27 CFR 555.59). (a) Certain persons other than the licensee or permittee may secure the right to carry on the same explosive materials business or operations at the same address shown on, and for the remainder of the term of, a current license or permit. Such persons are: (1) The surviving spouse or child, or executor, administrator, or other legal representative of a deceased licensee or permittee, and (2) A receiver or trustee in bankruptcy, or an assignee for benefit of creditors. (b) In order to secure the right provided by this section, the person or persons continuing the business or operations shall furnish the license or permit for that business or operations for endorsement of such succession to the Chief, FELC, within 30 days from the date on which the successor begins to carry on the business or operations.
