

# *Ambrosia Café*

15375 Addison Rd Addison, TX 75001

## Ambrosia Café's Vision and Operating Views:

Our views are to provide a place to the city of Addison consumers and the DFW area where people can get together at anytime throughout their day and feel like home. Our vision is derived from our daily busy lives that we live each day and have a peace of mind, whether it is a group of people, or individually to socialize and relax. With our selective menu, we would like to provide a variety of items to ensure our vision throughout our working hours. Ambrosia is an all-in-one place to dine, drink (nonalcoholic drinks), smoke and relax. To establish this ideology, we would start off by providing the best quality, service and consistency to all our customers. Secondly, we will facilitate Ambrosia with all the equipment needed to accomplish that satisfaction, from furniture, cables, USB outlets, lighting, seating, music, technology, drinks, food, and hookahs. Hookahs will be offered in our hookah section for leisure.

Our interior design has been studied carefully to accommodate our customers needs and desires. Our drinks (nonalcoholic) have been selected to provide everything a person would need as far as handcrafted coffees, organic teas, healthy smoothies and fresh juices as if you were home. And finally, our food menu has been thoroughly put together to complete the picture we are looking for. We have one of the finest chefs that understands our beliefs in merging different cultures together through his/her cooking styles. Our menu will be serving breakfast, lunch, and dinner items all day for convenience. Our pastries and desserts have also been considered carefully to be the cherry on top.

Our color of music incorporated will be a smooth combination of different cultures.

Our hours of operation will be Mon. – Sun. 6am to 12am for convenience.

With all this being said, we strive to make Ambrosia Café a place that delivers comfort and convenience from our standing point of view, and to treat customers how we would like to be treated ourselves.

It would be our pleasure to be part of the City of Addison's family and together we go far.
